

Project ChildSafe is a nationwide program whose purpose is to promote safe firearms handling and storage practices among all firearms owners through the distribution of key safety education messages and free gun locking devices (firearms safety kits). The program is supported by a U.S. Department of Justice grant (DOJ), the National Shooting Sports Foundation (NSSF), and is a component of Project Safe Neighborhoods.

Project ChildSafe establishes partnerships with governors, lieutenant governors, U.S. Attorneys, community leaders and law enforcement agencies to allow for efficient statewide distribution of firearm safety kits in all states. The Tulare County Sheriff's Department is listed as your local distributor of the firearm safety kit.

The gun locking device distributed in the Project ChildSafe program is a cable-style gun lock that meets the American Society for Testing and Materials (ASTM) current testing protocol standard (F2369-04). Cable locks require that many types of firearms be unloaded before the cable lock is installed, providing an extra level of safety.

For more information on Project ChildSafe visit: [www.projectchildsafefirearms.org](http://www.projectchildsafefirearms.org)

### GUN LOCK SAFETY TIPS

- Keep cable and lock outside of trigger guard at all times.
- Always push cable into padlock until it locks securely. After removing key, tug on cable to ensure connection is secure.
- Store key to the gun lock and the firearm separately. Be sure to store key in a location inaccessible to unauthorized persons, particularly children.
- Do not work the firearm's action with the lock in place. This may damage the lock and/or the firearm.
- If the lock's plastic coating becomes damaged or separated from the steel cable or the lock face, replace the lock.

### GENERAL FIREARM SAFETY TIPS

- Keep all firearms locked in a safe place, away from children and other unauthorized persons.
- Store ammunition under lock and key, separately from firearms.
- Read and understand the owner's manual that came with your firearm.
- Follow safe gun handling practices: keep muzzle pointed in a safe direction; keep fingers off the trigger; and keep the firearm unloaded when not in use.
